# Promoting Independence through Assistive Technology for the Aging

## AGENDA

5:45 PM ET – 6:00 PM ET:	Log in and Virtual Networking
6:00 PM ET – 8:00 PM ET:	Presentation
8:00 PM ET – 8:15 PM ET:	Door Prizes

This innovative course is meticulously curated to provide professionals in the healthcare and social service sectors with cutting-edge insights into the transformative world of assistive technology and its profound impact on aging individuals. Participants will gain a comprehensive understanding of the latest advancements and practical technologies promoting independence and quality of life. We will discuss and demonstrate over 50 different assistive technology solutions that can maximize independence in the home for aging in place. Discover how assistive technology acts as a catalyst for promoting autonomy among the elderly. Through real-life case studies and interactive discussions, attendees will explore how these innovations empower aging individuals to maintain their independence, engage in meaningful activities, and enjoy an enhanced quality of life.

### BY THE END OF THIS SESSION, THE PARTICIPANT WILL BE ABLE TO:

1. Identify at least 50 different solutions to maximize independence at home.
2. Identify at least 10 different tools and materials for rapid creation of assistive technology solutions in the home.
3. Identify at least 10 innovative ways that smart home technologies can maximize independence for seniors with physical, sensory or cognitive impairments.

*Course Interaction and Technical Requirements:* This live webinar is fully interactive. Attendees may ask and answer questions throughout the presentation and participate in instructor-led discussions. A computer or mobile device is required. Zoom account is *not* required.
