Empowering Independence: An Overview of Free or Low-Cost Assistive Technology Resources for Aging and Disabled Individuals

Wednesday, March 6, 2024

11:45 AM – 1:00 PM ET

Live Stream Series

(Online Synchronous Training)

AGENDA

11:45 AM - 12:00 PM: Log In and Virtual Networking

12:00 PM - 1:00 PM: Presentation

1:00 PM: Closing/Evaluation

Throughout all phases of our clients' lifespans, helping professionals are tasked with understanding and locating appropriate resources (especially resources that are free or affordable) for their clients who are aging and/or disabled. In this comprehensive overview of assistive technology (AT) resources, helping professionals will enhance their knowledge of free or low-cost options to help their clients of all ages who are disabled or aging. Using a case study model, this training will focus on Georgia's Tools for Life program as a representative example of AT services, and will also show participants how to locate programs in their states. Participants will gain a deeper understanding of AT, its applications, and how it can significantly improve the lives of individuals with disabilities, including the aging population. Additionally, the course will explore various funding options and provide real-life case scenarios to illustrate the practical use of AT in different situations.

BY THE END OF THE SESSION, THE PARTICIPANT WILL BE ABLE TO:

1. Define Assistive Technology (AT) and its role in enhancing independence and improving the quality of life for individuals with disabilities, including the aging population.
2. Identify key AT programs and services provided by AT Resource Centers, with a specific focus on Georgia's Tools for Life program and understand the range of AT options and funding sources available.
3. Apply knowledge of AT to real-life case scenarios involving individuals with disabilities or chronic conditions, demonstrating the ability to recommend suitable AT solutions, make appropriate referrals, and assess potential funding needs for clients.

Course Interaction and Technical Requirements: This live webinar is fully interactive. Attendees may ask and answer questions throughout the presentation and participate in instructor-led discussions. A computer or mobile device is required. Zoom account is not required. You will receive an email approximately 24 hours prior to the start of the event with a link to the webinar.

In order to receive credit, you must log in on time, attend the entire presentation, and complete an evaluation within 30 minutes of the conclusion of the event. Attendance log and Zoom analytics will be reviewed by the CE Director. Certificates will be provided in approximately 5 business days.

Target audience: Social workers, case managers, counselors, discharge planners, nurses and other healthcare professionals.

SOCIAL WORKERS: Empowering Independence: An Overview of Free or Low-Cost Assistive Technology Resources for Aging and Disabled Individuals, Course #5366, is approved by the Association of Social Work Boards (ASWB) Approved Continuing Education (ACE) program to be offered by CEU Creations as an individual course. Regulatory boards are the final authority on courses accepted for continuing education credit. ACE course approval period: 11/15/2023 - 11/15/2024.
